## MINI RIPPER

EGL24MRI(SIZE)-YHJO

- Single Concave throughout maintains speed and control.
- Rocker suits every type of conditions and ease of use to improve carving.
- Medium rails for great stability.
- Wider nose and tail for stability and paddling power.

The entry level fiberglass shortboard designed specifically to meet the needs of the youth. A stable, versatile and easy board to surf to promote rapid development and improvement in ability from their first surfboard to their first sponsor... Get out there and rip!!

# BAT BOARD

EGL24BAT(SIZE)-PZEO

- Slight single concave into double with V to maintains speed and control.
- Gentle Rocker throughout to allow easy positioning and turning
- Medium to full rail for forgiveness through turns.
- Wide Nose for stability and paddling power. Wide swallow tail for hold and extra surfaces area for added glide.

The Bat Board is the ultimate fun/modern fish. Designed to be very user friendly across a wide range of conditions to bring maximum fun to your surf. Stable under foot yet loose in the tail with great paddling power, it will improve your surfing while keeping the smile on your face.

# DISCUS

EGL024DS(SIZE)-KVJO

- Slight single concave throughout maintains speed and control.
- Gentle even rocker to allow easy positioning and turning and maintain flow.
- Full rail for added flow and comfort.
- Fuller Nose for paddling power and stability. Wider round tail for flow when carving.

The Discus is the ultimate blend between introductory and advanced performance surfing. With a longer wider outline giving maximum paddling power and excellent surface area for planing the board does most of the job for you! It is the perfect step down board from a mini-mal or longboard. Satisfaction for all levels guaranteed.

## MID TWIN

EGL24MWI(SIZE)-PZEO

- Flat entry to slight concave in mid section. Double concave slightvee exit.
- Low rocker entry and full volume allows great paddle power.
- Board as a twin allows great speed and maneuverability.

Board as a twin allows great speed and maneuverability. An easy weekend board to catch a load of waves no matter the conditions. Wider nose plan shape offers stability but overall size still allows easy paddle outs.

# BREAK

EGL24BRK(SIZE)-WBKO

- Flat bottom to V double concave for smooth gliding.
- Gentle even rocker to allow easy positioning and turning and maintain flow.
- Full rail for added flow and comfort.
- Fuller Nose for paddling power and stability. Small squash tail for planing in smaller waves.

The Break will ensure you catch the most waves and stay on your feet for the longest time. The Break is a super stable wave catching machine and will ensure you're having the most fun in the line-up.

# LONG LOG

EGL024LG91 -BGJ0

- Flat V for gliding control and rail to rail transitions.
- The rocker lends itself to planing and cruising and will also facilitate smooth turning.
- Full rolled forgiving rail.
- Standard cruising longboard outline.
- Fin Box + Futures fins positioned to enhance maneuverability.

The Long Log is our lightweight, user-friendly Longboard. It is a cruising machine that builds and maintains speed to glide over flatter sections with ease. Ideal for everyone from beginners to intermediate surfers in smaller or softer waves and will lift your wave count, guaranteed!
